

Flash Flood Warning

Beginning: 2026-03-14T10:27:00

Ending: 2026-03-14T14:00:00

Extension in Time

Flash Flood Warning issued March 14 at 12:27AM HST until March 14 at 4:00AM HST by NWS Honolulu HI

FFWHFO

The National Weather Service in Honolulu has extended the

*** Flash Flood Warning for...
The island of Oahu in Honolulu County**

*** Until 400 AM HST.**

*** At 1227 AM HST, radar indicated rainfall had diminished over Oahu, with rain now falling at a rate of half an inch per hour. Emergency Management reports ongoing flooding issues across the island however, and additional rainfall is developing and expected to move into the island during the next hour or so. Flash flooding is expected to continue.**

HAZARD...Flash flooding caused by heavy rain.

SOURCE...Radar.

IMPACT...Flooding in drainages, streams, rivers, roads, properties, and other low-lying areas. Public road closures possible in some areas. Landslides are possible in steep terrain.

*** Some locations that will experience flash flooding include...
The entire island of Oahu**
